Homework

Homework will be posted on Class Charts on a regular basis.

Please keep track of your child's homework and ensure they are checking the system daily.

You may find that some resources are posted to Google Classroom, however, Class Charts is the system that teachers will use to set homework.

Year 7 are currently only being set homework in the core subjects - maths, English and science. This is part of our transition program to help new students adjust to secondary school.

Homework

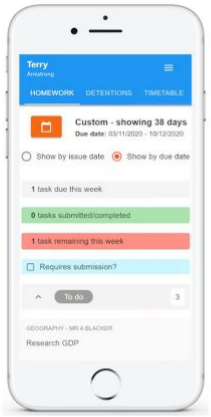

If your school has decided to share homework tasks with parents, you will see the Homework tab when viewing pupils from that school.

Selecting this tab will display a list of homework tasks which your child has been assigned to.

To change the date range for displayed homework tasks, click on the Date button to select from the available presets or create your own custom date range.

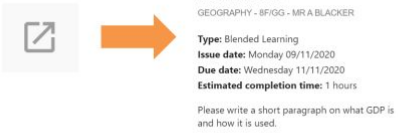

To display tasks in the order they were set, click on the Issue Date button

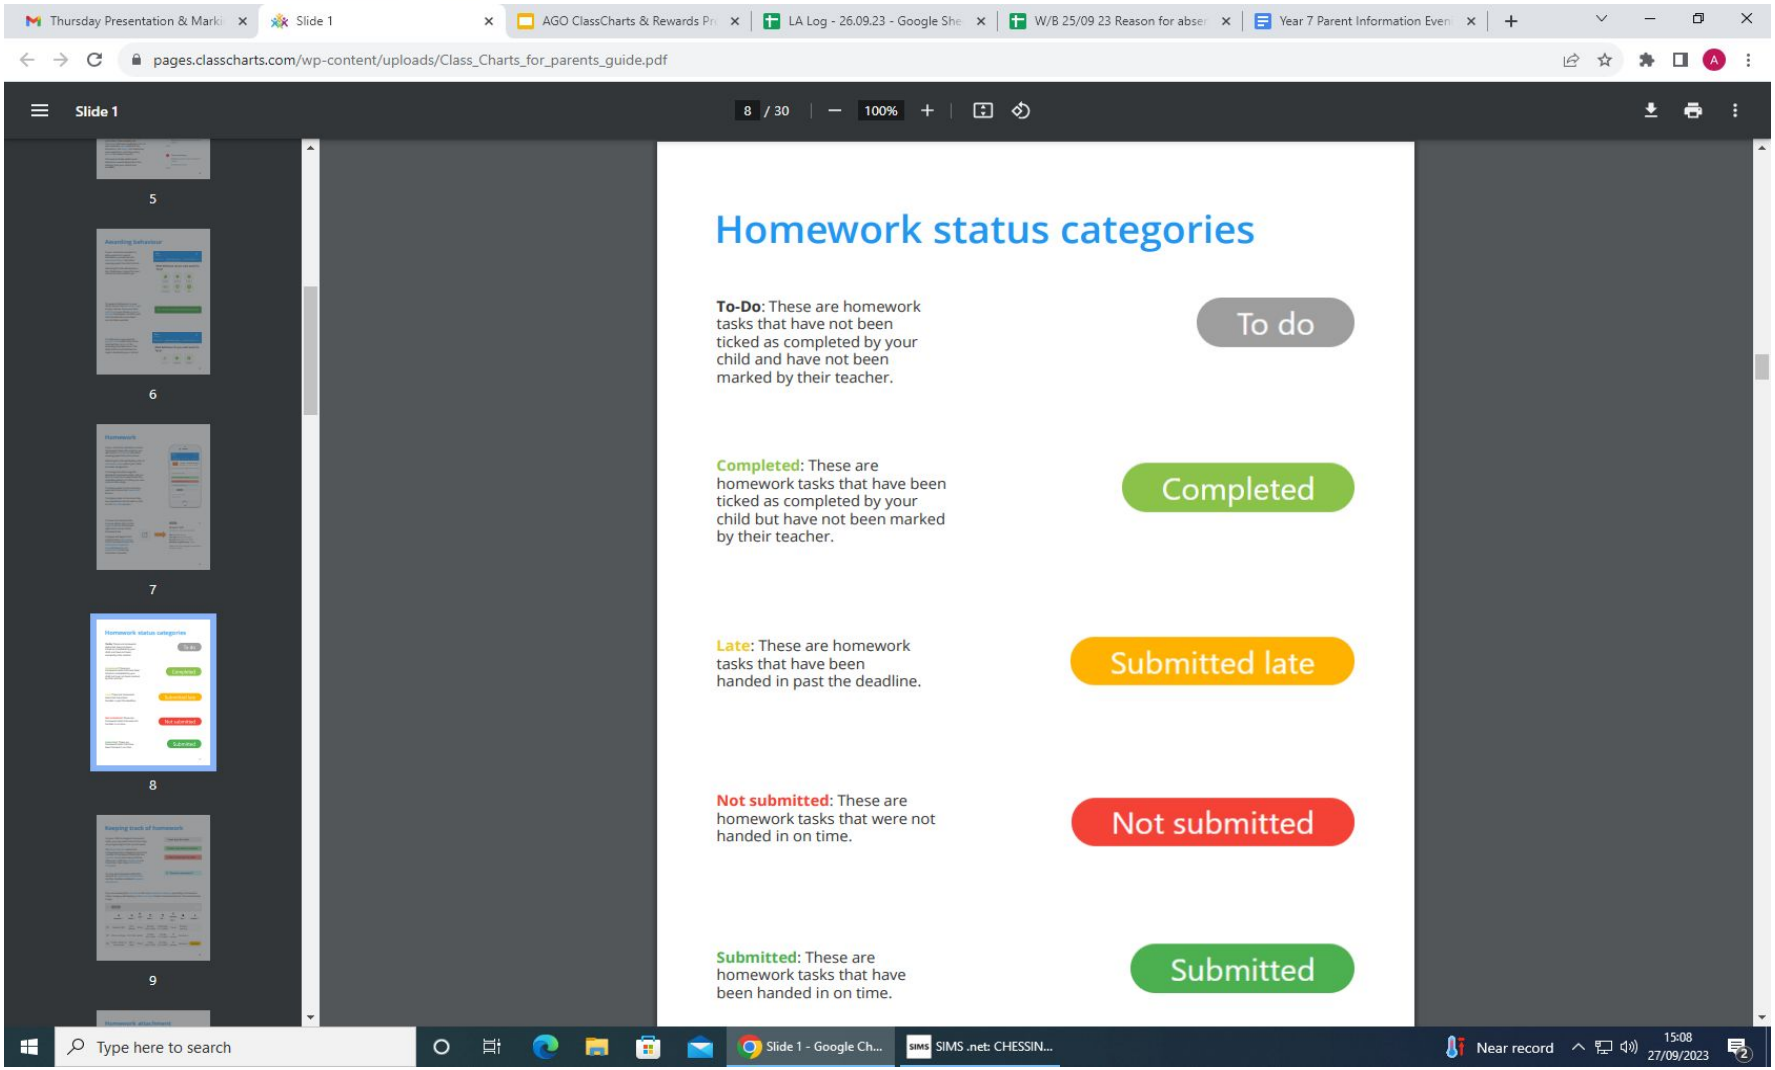

To display tasks in the order they are expected to be handed in, click on the Due date button.

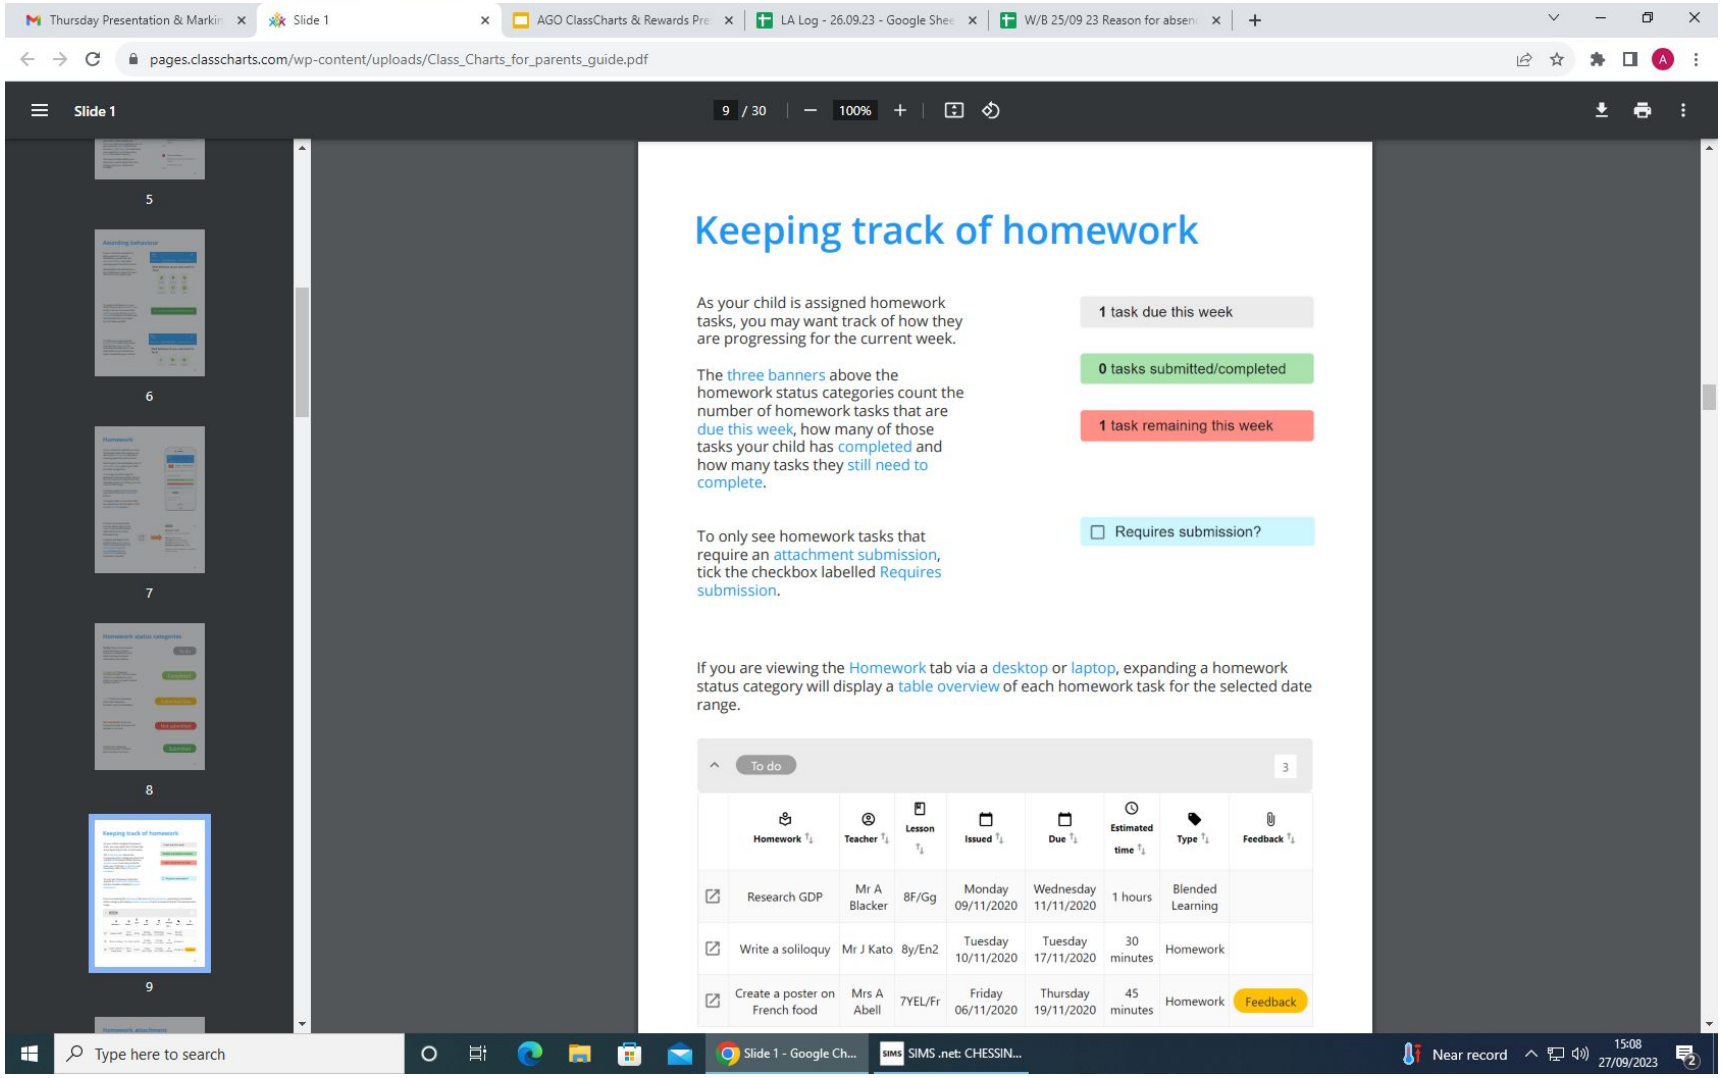

To view a homework task in more detail, click on the expand icon in the bottom right hand corner of the homework tile.

A popup will appear that contains the a description of the homework task, the estimated completion time and any links or attachments that may have been included.
